EXPERIENCE

Full Stack Web Developer, Rice University — *Student*

April 2020 - Present

Studying Full Stack Web Development

- Studying: HTML, CSS, JavaScript, JQuery, Materialize, API, BootStrap, Git Repository, and E6 HTML.

Saint Arnold Brewing Co., Houston, Tx — *Lead Shift Brewer*

October 2013 - April 2020

Supervised, trained and mentored 2-4 shift brewers on a team of 12 for the safe and sanitary production of over 60,000 barrels of beer and cider annually in a 24x5 industrial environment - from raw materials to wort and fermentation to filtration.

- Developed, maintained and trained brewers on over 100 Standard Operating Procedures.
- Maintained, created and vetted all Standard Operating Procedures including the volumes where they were stored.
- Created and maintained a functional training program from a dynamic brewery environment with emphasis on understanding and how to think like a plant operator.
- Maintained inventory of raw materials, including purchasing of all bulk chemicals and reporting on hand inventory of raw materials
- Started and implemented a company wide safety program that made SABC compliant with OSHA
